NEW TOPAZ ARGO...

Uniquely Versatile

The ARGO can be sailed singlehanded, raced by two and has capacity for four crew.

The performance, power and responsive handling will impress experienced sailors; the stability and forgiveness will grow the confidence of less experienced sailors; while the load capacity and versatility will attract sailing schools and families.

The single line mainsail reefing system and roller reefing jib mean that the ARGO can easily be depowered dependent on crew and conditions. A mast head float is fitted as standard.

Dynamically Stable & Powerful

As soon as you step aboard you will notice how stable the ARGO sailing platform is. The ARGO has a dynamic, yet forgiving ultra-stable hull shape and an easily controllable rig that is ideal for less experienced sailors but also has years of progression built in. All-in-all the ARGO is fast and exciting but also easily controllable and well mannered.

Reassuringly Spacious and Comfortable

The ARGO has a contoured side deck to provide a really comfortable sit-in feel. A high freeboard, deep spacious cockpit and high boom, plus unrivalled stability and a smooth ride mean that the ARGO has a wonderfully reassuring, safe and secure feel.

There is comfortable capacity for up to four crew for instruction or to load up with friends and equipment for a group day out.

Unrivalled Construction Quality

The tri-laminated Metalicene™ hull is essentially indestructible and requires virtually no maintenance. Topper's proven TOPAZ TRILAM construction method is unrivalled in the sailing industry and is unique to the TOPAZ Range of sailing dinghies and catamarans. Through the use of specialised construction technology and higher grade materials the Topaz TRILAM range are tougher, stiffer and more robust than any other similar products.
